

ENVIRONMENTAL POLICY

INTRODUCTION AND PURPOSE

As a global beer and beverage company, environmental sustainability is extremely important for the business of Carlsberg India Private Limited (“CIPL”/“Company”) together with any subsidiary of CIPL from time to time (“CIPL Group”). Most of our raw materials and ingredients are sourced directly from nature, and the continued success of our business is directly linked to the health of the environment. We are therefore continuously looking for ways to reduce our impact on the environment and the communities in which we operate.

The CIPL Group understands the important role that we play in understanding, protecting and enhancing the services that ecosystems provide and the underlying biodiversity. We are therefore constantly striving to optimise our use of natural resources, to view our products and activities from a life cycle perspective, and to develop and use environmentally friendly products, materials and technologies in a way that contributes to long-term sustainable development.

Our sustainability programme Together Towards ZERO clearly underlines our commitment to sustainable development, by setting industry-leading targets that tackle the impacts of our activities throughout the value chain, from the sourcing of materials, through packaging, production, distribution, sales and marketing, to the consumption of our products.

The purpose of the Environmental Policy is to prevent and control potential risks to the environment and it is supported by our ambitious targets towards 2022 and 2030 as described in Together Towards ZERO.

SCOPE

This policy applies to the management, employees and contract workers of all entities in the CIPL Group. The policy also applies to visitors and to situations where the Group’s employees or agents are working at external locations.

REQUIREMENTS

1. COMMITMENTS

- 1.1. To continuously improve our environmental standards.
- 1.2. To communicate and deliver according to our strategy, targets and related objectives.
- 1.3. To continuously work on risk reduction with a view to achieving zero environmental accidents.
- 1.4. To maintain our certified environmental management system.

2. ISO CERTIFICATION AND INTEGRATED MANAGEMENT SYSTEM (IMS)

- 2.1. The CIPL Group's supply chain management and production must be certified according to ISO 14001, which includes logistics.

3. ENERGY AND EMISSIONS

- 3.1. The CIPL Group strives to use all energy sources as efficiently as possible, and to reduce greenhouse gas emissions and emissions related to noise/odour/nuisance.
- 3.2. The CIPL Group regularly assesses the possibilities for introducing renewable energy in our operations in order to reduce our carbon footprint.

4. WATER AND WASTEWATER

- 4.1. The CIPL Group strives to achieve sustainable use of water in the communities in which we operate.

- 4.2. The CIPL Group regularly assesses our exposure to water scarcity in all forms and initiates appropriate actions to ensure the long-term availability of water.

- 4.3. In water-scarce areas, the CIPL Group engages with local communities to understand how we can best help to manage their watersheds.

- 4.4. The CIPL Group ensures that wastewater from our activities is treated in compliance with legal requirements. This is done either at an on-site wastewater treatment plant or an off-site municipal/industrial wastewater treatment plant.

5. WASTE AND BY-PRODUCTS

- 5.1. The CIPL Group works to eliminate or reduce/minimize waste generation in order to conserve resources and avoid pollution of soil, water and air.

- 5.2. The CIPL Group strives to utilize brewery by-products as feed material, renewable energy or soil improver.

- 5.3. Any form of uncontrolled land filling or uncontrolled on-site/off-site waste handling must be avoided.

6. PACKAGING

- 6.1. The CIPL Group continuously works with partners to reduce consumption of packaging materials and to promote their reuse and recycling in order to minimize environmental impact.

- 6.2. Before new packaging types are introduced to the marketplace, they must undergo a life cycle assessment (LCA) or similar environmental assessment.

- 6.3. The CIPL Group is committed to playing an active role in improving and building environmentally friendly beverage packaging systems.

7. INVESTMENTS AND PURCHASES

7.1. The CIPL Group prioritizes environmental aspects of investments and purchases when planning, costing and implementing activities with significant environmental impact, including all the areas covered in this policy.

7.2. The CIPL Group prioritizes the purchase of energy-efficient equipment and improved design for energy/environmental performance.

8. STAKEHOLDERS

8.1. The CIPL Group is committed to open and unbiased dialogue with our stakeholders on environmental issues, and we periodically align our approach with external and internal stakeholders through materiality assessments.

ROLES AND RESPONSIBILITIES

Body/function/individuals	Roles and responsibilities

GLOSSARY

EHS

Environment, Health and Safety.

IMS

Integrated Management System.

DEVIATIONS

No exemptions from this policy can be granted unless there are exceptional circumstances or the policy is obviously not applicable. All requests for exemptions must be made in writing to the policy owner. The policy owner must assess and decide on each request individually. Exemptions must be duly logged and documented.

In the event of any discrepancies between this policy and national laws or other applicable standards, the more stringent requirements will apply. Discrepancies between the provisions of this policy and applicable laws or other applicable standards must be evaluated by the CIPL Legal.

POLICY REVISION

This policy will be reviewed and, when necessary, revised every two years. It may be amended at any time with the approval of CIPL BoDs. In the event of any discrepancies between the English version of this policy and a translated version, the English version will be binding. Responsibility for revision lies with the policy owner.
